PROFESSIONAL SUMMARY

Results-driven BCA student and self-taught full-stack developer with 2+ years of freelance experience delivering 50+ projects in web development, data analytics, and business automation. Built two live production platforms (NextGen Digital Library — 500+ users; Advanced Billing Hub). Completed job simulations at TATA and Deloitte via Forage, and currently managing three simultaneous internships. Skilled in HTML5/CSS3/JavaScript, GenAI tools, MS Excel automation, and PWA architecture — equally strong across tech and non-tech environments.

WORK EXPERIENCE

Data Entry Operator

Mar 2025 – Present

Freelancer.com (Remote)

- Completed 50+ projects with 95%+ accuracy; earned repeat clients and 5-star ratings.
- Built structured spreadsheets that reduced client data-sorting time by ~40%.
- Zero missed deadlines across all assignments — consistent on-time delivery record.

Web Page Designer

2024 – Present

Freelance

- Designed and delivered responsive websites and portfolios for 15+ international clients.
- Customised WordPress themes and overhauled UI/UX layouts for improved engagement.
- Helped clients establish strong professional digital presence through branded web profiles.

Portfolio Designer

2024 – 2025

Upwork

- Delivered 50+ graphic design and portfolio projects with 100% on-time delivery rate.
- Designed logos, branded visuals, and modern portfolio layouts for global clients.
- Consistently received 5-star ratings and long-term repeat orders.

KEY PROJECTS

Premium 3D Interactive Portfolio Website

adityakumar12xyz.github.io/portfolio

- Built a premium 3D interactive portfolio with glassmorphism UI, animated skill bars (95% HTML5, 92% Excel), and live resume/CV viewer embedded directly on-site.
- Integrated live local time display, dynamic role-typing animation, and smooth section-by-section scroll transitions — achieving 100% visual precision rating.
- Fully SEO-optimised (meta tags, Open Graph, structured data) — indexed and discoverable on Google with targeted keywords.
- Features in-page CV download center allowing visitors to preview and download both Resume and full CV in PDF — directly increasing recruiter accessibility.

LANGUAGES

English (Professional)

NextGen Digital Library & Battle Arena (PWA)

adityakumar12xyz.github.io

- Built and launched a full-scale educational platform serving 500+ enrolled students across BCA, MCA, B.Tech, and NIELIT O/A Level programs — completely free.
- Features include: Code Studio (multi-language IDE), AI MCQ Quiz Generator, live Battle Arena with negative marking, CGPA Calculator, premium notes store, and digital wallet (₹1 = 1 coin) with UPI recharge/withdrawal.
- Admin dashboard manages student database, content CMS, battle scheduling, wallet approvals, push notifications, and Google AdSense integration (Publisher ID: ca-pub-1203992163053810).
- Offline-first PWA with Service Workers; gamified with XP points, leaderboards, achievement badges, and daily bonus system — driving 24/7 engagement.

PWA	Firebase Realtime DB	Google Auth	Service Workers	Google AdSense

Advanced Shop Billing & Marketing Hub

github.com/adityakumar12xyz

- Complete retail management suite: automated GST invoice generation, real-time inventory tracking with stock-sync alerts, and daily secure CSV report export.
- Bulk WhatsApp marketing engine supporting 10,000+ contacts with duplicate number filtering and multi-sheet Excel data merger for campaign management.
- Built for small/medium businesses with zero setup cost — pure browser + Excel based, no server required.

HTML5	CSS3	ES6 JS	VBA Macros	MS Excel
